

Creating Media - Digital Photography

Innovation

Prior Knowledge

Children have experienced technology within the classroom - Bee Bots, Whiteboard, Mini Laptops. They have completed a unit about "IT around us".

My Component Knowledge:

Lesson 1: I can use a digital device to take a photograph.

Lesson 2: I can make choices when taking a photograph.

Lesson 3: I can describe what makes a good photograph.

Lesson 4: I can understand how photographs can be improved.

Lesson 5: I can use tools to change an image.

Lesson 6: I can recognise that photos can be changed.

My Composite Knowledge:

I know that different devices can be used to capture photographs. I know that a photograph can be taken more than once to improve on the final image.

My Powerful Knowledge:

I can use my knowledge of digital photography to recognise images I see may not be real. I can understand how to capture, edit, and improving photos.

Key Vocabulary

Tier 1: change, camera, photograph, real, tablet, improve, tools, edit

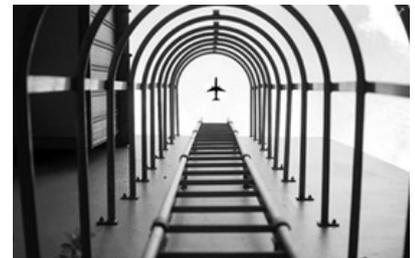

Tier 2: device, capture, digital, lighting, image, portrait, landscape

Tier 3: format, framing, filter, focus, device

What are the advantages of using digital photography?

How can we improve digital photographs?

Are all photographs real?
